

OUTDOOR KITCHENS & BBQ ISLANDS

Be a Chef in Your Own Backyard!

IslandCabanas.com

Island Cabanas.com, started in 2004, developed the concept of a strong, long lasting, cost effective way of bringing you a beautiful Custom Outdoor Kitchen.

As I traveled around the Southeast, especially Florida, I noticed that every new house being built was equipped with an Outdoor Kitchen. Not only were these outdoor kitchens functional and beautiful, I realized that here in the Northeast, we are far behind the times in having these kitchens available to us for our own backyard use.

With months of planning, designing, and engineering, we have developed a very cost effective way to bring you a new environment for your backyard providing a wonderful entertainment center for long lasting enjoyment with your friends and family.

RESORT STYLE LIVING!

CUSTOM vs. KITS: We do not manufacture standard kits where you get a small BBQ Island for alot of money. Designed to meet every budget and desire.

Make your dreams come true today

Call or email us and see how affordable it is to have a fabulous outdoor kitchen in your own backyard. Why spend a lot of money on a BBQ Island Kit, where you get a 4 foot or 5 foot island with only a grill, side burner and door, when you could have your very own **Custom Outdoor Kitchen.**

And we also fabricate Custom Vinyl Covers where we cover the **WHOLE ISLAND!** No one else can offer you this complete quality service. Our covers are sewn in house as we do not subcontract. Commercial machine sewn using the same vinyl material that is used on boats and other marine applications.
